

Because of steady growth Mott MacDonald NL is recruiting for a:

Project Manager Highways PPP (full time)

The Project Manager Highways PPP will work on projects in the Netherlands, Belgium and other parts of North-Western Europe combining technical, financial and organisational aspects. The focus for this position will be on Highway construction and maintenance projects, in which we advise financing institutions, contractors, developers and end users on (technical) risks during the development, construction and maintenance of infrastructure projects. The Project Manager PPP works for our clients in teams of international professionals within Mott MacDonald to find successful solutions for their needs.

The Project Manager will assess the technical work in the various stages of a project. Experience in analysing DBFM(O) contracts and proven skills in writing technical due diligence reports are essential to be considered for this position. Our office is based in Arnhem. Travelling within the Netherlands, Belgium and other parts of North-Western Europe, depending on the location of projects and clients comes with the job.

REQUIREMENTS

- A Bachelor or Masters Degree in Civil Engineering and infrastructure with possible additional training in legal or economical areas
- Several years of relevant work experience in D&C/DBFM/PPP projects within a commercial, engineering or consultancy firm
- Practical knowledge of infrastructure construction and maintenance
- Experience with Project Management, and new contract types like D&C, DBFM(O)
- Strong analytical, negotiation and communicative skills; able to write reports in English
- Creative and result oriented and able to relate to the clients needs and work under tight deadlines
- Fluent in Dutch and English; knowledge of other languages (French and/or German) is an asset

OUR WORK
